

CALL FOR APPLICATIONS FOR THE ROLE OF COMMUNICATIONS ASSISTANT

The **Department for Information Systems for Sustainable Society (IS3)** is inviting applications for the role of **Communications Assistant** (on a flexible 8 h/week student assistant basis)

We are looking for advanced **Bachelor's or early stage Master's students** with journalism, communications or media management backgrounds and profound interest in the key societal issues of smart energy and smart mobility.

As Communications Assistant your main responsibility will be to **present** the cutting edge **research our chair performs** at the intersection of smart energy/mobility and machine learning **to a wider, non-academic audience**. Your main tasks will include:

- You will be in charge of our two main Twitter accounts and create valuable content based on our research
- You will develop content for several projects we are involved in with the [World Economic Forum](#)
- You will contribute to a book on the future of smart energy and mobility

Please send any inquiries and your applications (CV and/or link to your LinkedIn Profile + overview of grades summarized in one .pdf file) to karsten.schroer@uni-koeln.de
