

Call for Application for the role of Student Assistant

The Department for Information Systems for Sustainable Society ([IS3](#)) is inviting applications for the role of student assistant (8h / week), starting immediately.

We are looking for **advanced Bachelor's** or **early stage Master's** students with information systems, computer science, economics or business management backgrounds who are interested to join our team in the following role:

Student Assistant (SHK / WHB)

As a student assistant, you will support our researchers in collecting documents, prepare reports, presentations and dissemination in various areas, particularly energy markets, algorithmic trading, decentralized finance, and machine learning. Occasionally there might be some administrative tasks, or exam corrections, and analytics tasks you can help us with.

You should have **strong writing and research skills**. **Technical background** (i.e. Python or Julia) and **analytical skills** are advantages.

SHK (Bachelor): 12€/h
WHB (Master): 13,20€/h

Please send any inquiries and applications (CV and grades in one PDF) to is3-academic@uni-koeln.de.

If you have questions, reach out to Saber Talari (talari@wiso.uni-koeln.de) or Julius Kuhmann (kuhmann@wiso.uni-koeln.de) in the workshops or via mail.
